DETAILED ACTION

Information Disclosure Statement

In the IDS dated 10/20/05, foreign patents have been crossed-out since applicants did not provide the complete translation of the patent. Applicants provided abstracts and therefore these abstracts were only considered. Applicants are also notified that there is no translation of the article by JANISTYN. In the IDS dated 8/3/05, foreign patents have been crossed-out since applicants provided the complete translation of some of the patents and abstracts of some of the patents and this were cited under “ abstracts and patent translations”.

The following is an examiner's statement of reasons for allowance: the references cited on IDS form do not disclose or fairly suggest the claimed cosmetic compositions. Claims 97-98 are not drawn to new matter since the patent describes the silicone gum with viscosity greater than 100, 000 mPA.s and the patent also defines that n and p can have values ranging from 0-5000 and 0-3000 respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
